Report of testing officer.

*12. The testing officer shall, as soon as practicable, and ordinarily within twenty-four hours after receipt of any samples, sign a report certifying that they are, or are not, dangerous petroleum, as the case may be, and shall forward such report to the office of the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be* where it shall be deposited.

Fee for testing.

*13. The fee for testing each sample shall be five rupees:

Provided that the total amount of the fees chargeable under this rule shall not, in the case of any one ship, exceed Rs. 50.

When a ship carrying petroleum may anchor at ordinary anchorage.

*14. A ship may proceed to the usual anchorage in *either of the ports* specified in rule 1 and there discharge any certificated petroleum not exceeding five thousand gallons in quantity:

Provided that the officer whose duty it is, under rule 5, to select samples of petroleum on board, may at any time take a sample of any such petroleum for the purpose of having it tested.

Exception in respect of petroleum declared dangerous which is not in excess of forty gallons.

15. If the quantity of petroleum declared dangerous on board a ship does not exceed forty gallons and there is no other petroleum on board, or the aggregate quantity of petroleum on board, including petroleum declared dangerous, does not exceed forty gallons, the said petroleum may be forthwith landed.

When a ship carrying petroleum must anchor at a special anchorage.

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the port shall appoint in this behalf. If the petroleum is intended to be discharged at *either of the ports specified in rule 1*, the vessel shall not leave such anchorage, except for the purpose of discharge of bulk oil petroleum as laid down in rule 19, until all the petroleum has been so discharged. If the petroleum or a portion of it is intended for some other port, the petroleum or such portion of it shall be temporarily discharged at such anchorage before the vessel proceeds into the harbour. If it is not so discharged, the vessel shall remain at such anchorage until her final departure.

Such anchorage shall in no case be the same as that for vessels laden with explosives, and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

Petroleum referred to in rule 16 not to be landed until it has been tested

*17. Save as provided in rule 18, no petroleum, of which samples have been taken under rule 5, shall be landed from any ship referred to in rule 16 until the testing officer's report in respect thereof has been received in the office of the Port

Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be.*

Landing of petroleum in anticipation of the testing officer's report

18. (*1*) The Port Commissioners may, in anticipation of the testing officer's report, allow the consignee of any petroleum to discharge the same into boats or to land it.

(*2*) Such permission shall be subject to the condition that the boats into which the petroleum is discharged shall remain at such place as may be directed by the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be*, or that the petroleum shall be landed at a landing-place duly appointed for this purpose, and be stored in an installation licensed under rule 13 or 14 of Chapter IV, Part II.

Landing of petroleum in bulk

19. When petroleum is imported in bulk, its removal from the ship shall be effected by means of a hose and a metal pipe, and it shall be pumped into storage-tanks. The discharge shall be continuous, day and night, until completed, weather and appliances permitting. When working at night electric light only shall be used; and, when the ship has finished discharging, the pipe to the storage-tanks shall immediately be emptied by means of a supplementary pump on shore. If for any cause the discharge of petroleum is at any time suspended, arrangements must be made by means of a valve for effectually preventing any of the oil left in the pipe from escaping.

Landing of petroleum otherwise than in bulk

20. When petroleum imported otherwise than in bulk is landed within the port—

(1) it shall be landed either at jetties provided for the purpose, or in cargo-boats, and, except where electric light is exclusively used, only after sunrise and before sunset, and only at such place or places as the Conservator of the port shall direct;

(2) dangerous and non-dangerous petroleum shall not be conveyed to the shore at the same time on the same cargo-boat;

(3) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed in any cargo-boat during the time that the petroleum is on board the boat.

Transhipment of petroleum

21. Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India:

Provided that—

(*a*) the petroleum shall not be transhipped between sunset and sunrise except when electric light is exclusively used,

(*b*) dangerous and non-dangerous petroleum shall not be conveyed at the same time on any boat which is used for transhipping the petroleum, and

(*c*) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed on any boat which is being used for transhipping the petroleum from the one ship to the other.

Import-licenses how obtainable

22. (*1*) Applications for import-licenses under section 5 of the Act shall be submitted to the officer appointed by the Government of Bengal in this behalf, who will, after enquiry, forward the same with his opinion to the Government of Bengal.

(*2*) If the application is granted, a license in Form M, signed by a Secretary to the Government, shall be forwarded to the applicant through the officer to whom his application was submitted. The license may be granted for a period of twelve months.

Petroleum comprised in ship's stores.

23. Nothing in the foregoing rules in this Part applies to petroleum, other than dangerous petroleum, comprised in a ship's stores and manifested as such provided it is not of unreasonably large amount. If any question arises as to whether any petroleum manifested as ship's stores of an unreasonably large amount, the decision thereon of the Collector of Customs shall be final.

Petroleum having a flashing point above 150° F

24. Nothing in the foregoing rules in this Part applies to petroleum which has a flashing point above 150° of Fahrenheit's thermometer. If the master of, or agent for, a ship certifies in writing that any petroleum on board is of this description, the Port Commissioners *Calcutta or the Collector of Customs.*

Chittagong, as the case may be shall allow it to be discharged in the same manner as ordinary cargo; but the Superintendent of the Petroleum Wharf *at Budge-Budge or in Chittagong the Superintendent of Police or the District Magistrate, as the case may be*, may at any time require a sample of any portion of it to be delivered to him, with a view to having it tested.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1912-13.

GENERAL DEPARTMENT.

MUNICIPAL.

CALCUTTA, THE 11TH MAY 1914.

RESOLUTION—No. 1381M.

READ—

The Reports from the Commissioners of Divisions on the working of Municipalities in the Bengal Presidency (except Calcutta) during the year 1912-13.

MUNICIPAL administration during the first year of the newly constituted Presidency was for the most part uneventful. The larger municipalities

continued to make steady progress and a few of the smaller bodies made good use of the limited funds at their disposal. The general position remained unchanged and the description given in last year's resolution still holds good. A hopeful sign of the year was the increasing interest taken by Municipal Commissioners in local affairs, and the growing inclination shown by the rate-payers to co-operate actively in the work of local self-government.

1. *Number of Municipalities and revision of boundaries.*—The number of municipalities in the Presidency remained unchanged, viz., 111. A slight addition was made to the area of the Kushtia Municipality and a few outlying villages were excluded from that of Nawabganj. The proposal to establish a municipality at Bhola was postponed.

2. *Result of elections.*—General elections were held in 62 out of the 111 municipalities in the Presidency during the year under report. The seats were as a rule keenly contested, party feeling running high. The attendance of voters was on the whole good, but it varied very greatly. The highest percentage of attendance was 94·07 in Ward No. IV of the Burdwan Municipality and the lowest, except for one election where the number of candidates was only one in excess of the number of seats and one candidate withdrew at a very early stage of the polling, was 5·18 in Ward No. I of the Suri Municipality. The greatest apathy was shown in Kurseong, where only three candidates came forward for eight seats and the remaining five had to be filled by nomination.

Seven elections were declared invalid by the Magistrate on account of irregularities. In Burdwan, civil litigation ensued and the case was still pending at the close of the year. In Barisal the election which had been declared invalid by the Magistrate in the preceding year was eventually decided by the Civil Court to be valid.

The elective system was extended to Debhatta in Khulna during the year under report.

3. *Number of meetings and attendance of Commissioners.*—The total number of meetings held rose from 1,980 to 2,050, and the number of those that had to be adjourned for want of a quorum fell from 146 to 132. The Bally Municipality held no less than 45 meetings and several other municipalities held more than 30. On the other hand, Dainhat, Khirpai, North Barrackpore, Taki, Meherpur, Debhatta, Jalpaiguri, Rangpur, Serajganj and Old Malda failed to hold 12 meetings during the year.

The attendance of Commissioners was, on the whole, fairly good. In North Dum-Dum, North Barrackpore, Chittagong and Sherpur in Bogra, the average attendance exceeded 75 per cent., and in 79 other municipalities it exceeded 50 per cent. In Debhatta and Comilla the percentage was unsatisfactory, while in Baduria it fell as low as 22·2 per cent.

4. *Number of rate-payers.*—The total number of rate-payers fell from 312,338 to 311,654. The decrease of 1,562 in Nawabganj was due to the exclusion of outlying villages, to which reference has already been made. The decline in Halishahar and Panihati is attributed to the correction of mistaken calculations made in 1910, and to the fact that the occupiers of holdings acquired for the railway had moved out of municipal limits.

The percentage of rate-payers to population was 15·7, a trifle lower than in the previous year. It was lowest in Titagurh (3·5), Garulia (5·1), Bhatpara (6·2), Bhadreswar (8·6), Garden Reach (8·8) and Narayanganj (8·8). The low percentage in the advanced and thriving municipality of Narayanganj is due to the presence in the town of a large number of factory labourers whose rates are paid by their employers.

5. *Assessment and taxation.*—In 37 municipalities and in certain wards of the Bhadreswar, South Dum-Dum, South Barrackpore, Brahmanbaria and Rampur-Boalia Municipalities, the rate on holdings is the principal form of taxation. In 69 municipalities and in the remaining portion of the five municipalities mentioned above, a tax on persons was in force. In addition, latrine fees were levied in 92 municipalities, a water-rate in 15 and a lighting-rate in four.

The average incidence of taxation per head of population for the whole province was Re. 1-15-1 as compared with Rs. 1-14-8 during 1911-12. In the hill municipalities of Darjeeling and Kurseong the incidence of taxation was Rs. 8-6-9 and Rs. 4-11-10, respectively; in other municipalities it varied from Rs. 5-1-6 in Cossipore-Chitpur to annas 6 in Baduria and Ramjibanpur. The Presidency Division still shows the lowest average incidence of taxation, viz., Re. 1-10-2, the increase during the year being practically nil.

6. *Revision of assessment.*—A general or partial revision of assessments was made in 63 municipalities. The resultant increase of revenue was largest in the following municipalities :—

	Rs.
Maniktala	4,780
Jalpaiguri	3,180
Jamalpur	2,582
Tangail	2,192

7. *Collections.*—The total collections rose from Rs. 37,13,664 to Rs. 38,06,365, the increase being shared by all the divisions except Dacca; but the arrears outstanding at the commencement of the year were considerably less than those of the year before, hence the percentage of total collections to current demand fell from 97·8 to 96·15.

The Garulia Municipality again succeeded in collecting the entire demand without any remissions or arrears. The municipalities of Tittagurh and Naihati had no outstandings at the beginning or end of the year, and the remissions granted by them amounted to only ·2 and ·3 per cent., respectively. Twenty-one municipalities made total collections equal to or exceeding the current demand, the highest percentages being 113·2 in Nawabganj and 111·9 in Mymensingh.

The total remissions fell from Rs. 1,56,756 to Rs. 1,24,100, and their percentage on current demand from 4·1 to 3·13. The highest percentage of remissions was 10·5 in South Suburban, followed by 8·3 in Bansberia and 8·1 in Maniktala.

The outstanding balances rose from Rs. 1,97,079 to Rs. 2,26,519, an increase of about 15 per cent. In Howrah the arrears amounted to Rs. 57,630 and in Hooghly-Chinsura and Burdwan to Rs. 17,162 and Rs. 13,289, respectively. In all, eleven municipalities had arrears exceeding Rs. 5,000. This result is unsatisfactory and attention is invited to the remarks in paragraph 8 of the Resolution reviewing the reports for 1911-12.

8. *Income and expenditure.*—The total receipts of the municipalities of this Province, including the opening balances, amounted to Rs. 93,22,039 as against Rs. 78,08,730 in the previous year. The increase occurred under the following heads :—

	Rs.
Opening balance	3,77,071
Municipal rates and taxes	95,215
Municipal property and powers apart from taxation	15,596
Miscellaneous	14,409
Extraordinary and Debt	11,21,568

There was a decrease of Rs. 1,19,303 under the head "Grants and contributions."

The total disbursements amounted to Rs. 74,84,083 as against Rs. 59,76,731 in the previous year, the increase being principally under the heads "Extraordinary and Debt" (Rs. 12,63,547), and "Public health and convenience" (Rs. 2,29,195). There was a slight decrease under the heads "Miscellaneous" and "Contributions."

9. *Closing balances.*—The closing balances rose from Rs. 18,31,999 to Rs. 18,37,956. The largest balances were held by Howrah (Rs. 4,47,944) and Darjeeling (Rs. 1,41,099), the increase at the latter place being mainly due to mismanagement of the accounts ; but uncashed cheques and large sums received and credited only a few days before the end of the year contributed. In several municipalities the balances exceed the ordinary income, the explanation in most cases being that the municipalities are accumulating funds with which to carry out large schemes of water-supply or drainage.

10. *Income* (*Rs. 93,22,039*).—The total income of the year, excluding that under the heads of "Opening balance" and "Extraordinary and Debt" amounted to Rs. 50,99,683, showing an increase of Rs. 14,670 over the figures of the preceding year. Details of the main items of revenue are given below.

11. *Tax on houses and lands* (*Rs. 14,37,174*).—The increase under this head amounts to only Rs. 13,152. It would have been much greater, but for the fact that there were large arrear collections in 1911-12.

12. *Taxes on animals and vehicles* (*Rs. 2,11,945*).—The receipts under this head show an increase of Rs. 7,023. most of which accrued in the Rajshahi Division.

13. *Tax on professions and trades* (*Rs. 70,465*).—The income under this head rose by Rs. 13,355. In the Howrah Municipality alone the increase was Rs. 16,304, but this was counterbalanced to some extent by a considerable decline in the Presidency Division. The only point of interest in the reports is that a combination among the tanners and brickmakers in the Tollyganj Municipality, to thwart the efforts of the municipality to realise these fees, resulted in a decrease of nearly Rs. 1,500 in that municipality.

14. *Tolls on roads and ferries* (*Rs. 83,258*).—The decline under this head continued. The Burdwan Division, it is true, showed an increase of Rs. 1,617, but the Presidency and Dacca Divisions show a decrease of Rs. 3,719 and Rs. 2,467 respectively. The net loss under this head was Rs. 4,936.

15. *Water-rate* (*Rs. 5,38,015*).—This rate was levied in 15 municipalities and the total income shows an increase of Rs. 29,399 as compared with the previous year. Of this amount the Cossipore-Chitpur Municipality contributed Rs. 13,836, Mymensingh Rs. 6,215, and Barisal, where the tax was imposed for the first time from the third quarter of the year, Rs. 10,208. The Maniktala Municipality, on the other hand, showed a decrease of Rs. 2,776 owing to refund of a portion of the rates illegally realised in the previous year ; and Garden Reach a decrease of Rs. 7,616 owing to collection of large arrears in the previous year.

16. *Lighting rate* (*Rs. 1,65,090*).—This rate is levied only in the four municipalities of Howrah, Cossipore-Chitpur, Maniktala and Darjeeling. The Darjeeling Municipality has credited the receipts from this source, amounting to Rs. 55,002, to the head "Electric light installation" and these have been shown in column 35 (*b*) of Form II headed "Other fees."

The net increase under this head was Rs. 9,413.

17. *Conservancy* (*including scavenging and latrine rates*) (*Rs. 9,71,793*).—There was an increase of Rs. 23,169 under this head.

The receipts from the sale of night-soil and street sweepings amounted to only Rs. 2,342, out of which Howrah alone realised Rs. 1,115. The people in general appear to be generally averse to using night-soil as manure ; but the Presidency Commissioner reports that two municipalities in the 24-Parganas succeeded in trenching night-soil on private lands, and the District Magistrate is of opinion that cultivators have begun to recognise its agricultural value.

18. *Tax on persons according to their circumstances and property.*—The receipts from the tax on persons increased from Rs. 3,70,376 to Rs. 3,79,135. The variation is slight and calls for no remarks.

19. *Receipts under hackney carriages* (*Rs. 15,959*).—This tax was levied in 56 municipalities as against 53 in the previous year. The aggregate amount of receipts shows a slight increase of Rs. 913.

20. *Grant from Provincial and Local Funds and contribution from private individuals* (*Rs. 5,86,247*).—The receipts under this head show a falling off of Rs. 1,19,303 in comparison with those of the previous year. Among the grants made by Government during the year the following were the most important :—

Rs. 25,400 to the Katwa Municipality for drainage ;
Rs. 11,000 to Baranagar for completion of its drainage scheme ;
Rs. 11,000 to Garulia for drainage, and
Rs. 20,000 to Chittagong for general improvement of the town.

The following instances of private liberality deserve special mention :— The Maharajadhiraj Bahadur of Burdwan contributed a further sum of Rs. 10,000 towards the drainage scheme of Burdwan, Raja Rao Jogendra Narain Roy Bahadur of Lalgola made a donation of Rs. 17,315 for the construction of a phthisis ward and other improvements in the Berhampore Hospital ; and Mr. W. W. Clay, the first Magistrate-Collector of Khulna, made a contribution of Rs. 1,483 for the construction of an operation-room in the local dispensary.

21. *Expenditure, Office establishment and collection charges* (*Rs. 3,41,856*).—The total expenditure under this head showed an increase of Rs. 11,774.

The percentage calculated on the total ordinary expenditure was highest in Debhatta (23·7) ; Nalchiti, Old Malda and Gobordanga following with 23·1, 20·9 and 20·5 respectively.

The steady rise under this head of expenditure is due to the increased cost of living.

22. *Prevention of fire* (*Rs. 52,948*).—Expenditure under this head was incurred by 20 municipalities as against 23 in the previous year, and the total amount shows a decrease of Rs, 6,125. The expenditure shown under this head against Howrah (Rs. 18,997), Cossipore-Chitpur (Rs. 25,134), Maniktala (Rs. 2,495) and Garden Reach (Rs. 4,159) represents the amounts contributed towards the maintenance of the Metropolitan Fire Brigade.

23. *Lighting* (*Rs. 2,94,090*).—The expenditure under this head showed an increase of Rs. 11,187 as compared with the previous year.

The Darjeeling Municipality spent Rs. 30,976 on the electric installation. The proposal for the supply of electric power by the Darjeeling Municipality to Kurseong having been negatived by Government as impracticable, the Municipal Commissioners of Kurseong contemplate setting up an installation of their own, and Part VIII of the Act has been extended to the municipality with this object in view.

The Dacca Municipality, which has hitherto received its electric current free owing to the generosity of the Ahsanulla Trustees, will now have to make its own arrangements and to incur heavy expenditure.

As in the previous year the municipalities of North and South Barrackpore, Taki, Birnagar and Chakdah spent nothing upon lighting No explanation of this omission has been given although the attention of the local officers had been previously drawn to the matter.

In many other municipalities, particularly in Barisal and Chittagong, the arrangements for lighting are still defective and it is hoped that much more attention will in future be paid by the municipalities to this important branch of their duties.

24. *Water-supply* (*Rs. 9,72,716*).—The expenditure under this head rose by Rs. 3,36,846, out of which Rs. 3,19,660 were on account of "Capital outlay." The administrative approval of Government was accorded to the independent water-supply scheme for Uttarpara which had been rendered practicable by the liberality of Rai Jyot Kumar Mukerjee Bahadur. In the municipalities of Krishnagar, Asansol, Bhatpara, Madaripur, English Bazar and Chandpur (north section) schemes for the supply of good drinking water were under the consideration of the Commissioners.

The water-supply schemes at Barisal, Chandpur (old Bazar), Perojpur and Kurseong were completed, while the schemes at Hooghly-Chinsura, Serampore and Jessore were approaching completion at the end of the year

Progress was also made in the extension of the Khulna water-works. At Mymensingh, a proposal for the improvement of the present works at a cost of Rs. 80,000 was approved by the Commissioners. Extension of the filtered water-supply to the trans-Lakhya portion of the municipality is still under contemplation. In Darjeeling the catchment area was extended. In Natore the scheme for the supply of drinking water on the "Faridpur system" was condemned, and it is now proposed to supply the town with filtered water by means of pipes. No progress was made with the water-supply scheme at Rampur-Boalia and Pabna; and the Kalna water-supply project fell through on account of the withdrawal of his offer of Rs. 25,000 by Kaviraj Upendra Nath Sen.

The new water-works in Kurseong were opened during the year. Bacteriological analyses of the water made by the Sanitary Commissioner disclosed the presence of fœcal bacilli. The catchment area is clothed with virgin forest and thick vegetation; it has been fenced in, but charcoal-burning is allowed by the Forest Department and in the upper part of the area the grazing of cattle is very common. The Sanitary Commissioner holds that this is sufficient to account for the contamination of the water, which is, however, in his opinion not such as to give cause for serious alarm. The Chairman is, however, anxious to get complete control over the area.

In several municipalities progress was made in the sinking of wells and re-excavation of tanks.

25. *Drainage* (*Rs. 2,79,261*).—The total capital outlay declined from Rs. 1,65,933 to Rs. 1,48,138, while the expenditure on account of establishment, repairs, etc., rose from Rs. 1,16,574 to Rs. 1,31,123. The Burdwan Municipality incurred the largest capital expenditure, viz., Rs. 41,138. Schemes were under consideration at Asansol, Cossipore-Chitpur (suburban scheme), Kamarhati, Garden Reach, Dacca and Faridpur. Detailed plans and estimates for the subsidiary drains in connection with the Bagjola drainage scheme were prepared by the Irrigation Department. The second portion of the Garulia drainage scheme was undertaken, and the Bhatpara outfall channel scheme and the Kushtia and Ranaghat schemes were nearly completed. The drainage scheme for the Bhadreswar Municipality was submitted to Government and that for Katwa was sanctioned. The Rajpore Municipality was compelled to abandon its drainage project for want of funds. The drainage scheme for the northern portion of the Budge-Budge Municipality could not be completed as a part of the area covered by it is outside the municipal limits. The Municipal Commissioners are considering the question of including this area within Municipal limits. The drainage schemes at Uttarpara (for block No. 3), Bankura (combined drainage and water-supply scheme), Mymensingh, Tangail and Natore made little headway, and vigorous action is needed to complete them. The late Government of Eastern Bengal and Assam made a grant of Rs. 7,000 to the Comilla Municipality for a survey of the town as a basis for a drainage scheme which is badly needed. The survey was commenced and made satisfactory progress during the year. In Kurseong the municipality suffered considerable loss owing to the uncemented masonry work on two Jhora drains being washed away by exceptionally heavy rain.

In reporting on the anti-malarial operations in North Barrackpore Major Fry has remarked that the drains constructed there already show signs of neglect and lack of maintenance. It is essential that municipalities should realize that if drainage schemes are to be effective it is imperative that proper attention should be given to the drains after completion, and that the practice of undue retrenchment in the recurring cost of maintenance can only result in the waste of the capital expenditure.

26. *Conservancy, including road-clearing, road-watering and latrine* (*Rs. 13,55,675*).—The expenditure under this head shows a decrease of Rs. 1,04,064, which is mainly due to the reduction of expenditure on the Darjeeling sewerage scheme now nearing completion, on which a large sum was expended last year. There was also a noticeable decrease in Dacca (Rs. 46,788) owing to the large expenditure in the preceding year on the

improvement of the conservancy tramway, but the expenditure was still considerably in excess (Rs. 16,406) of the figure for 1910-11.

This branch of municipal administration is still the one in which there is the greatest need for improvement. The difficulties are admittedly great, but it is hoped that the more general employment of Health Officers and the appointment of Sanitary Inspectors will soon have a salutary effect. It is reported that a high standard of efficiency has been reached in the three towns of Cossipore-Chitpur, Maniktala and Garden Reach which already employ Health Officers.

27. *Hospitals and Dispensaries* (*Rs. 2,95,987*).—The expenditure on this head increased slightly, but fell far short of that in 1910-11. The increase was shared by all divisions except the Presidency Division, where, however, the decrease was very small. The expenditure rose in 50 municipalities, while in the rest it either showed a decrease or was stationary. A new charitable dispensary was opened in Asansol. Lands were acquired for a dispensary in Basirhat. The municipality of Khulna added an operation room to the Woodburn Hospital. The Barisal Municipality made a contribution of Rs. 3,000 towards the construction of new dispensary buildings. The Pabna Municipality was unable to pay its contribution to the Sadar Dispensary owing to lack of funds.

28. *Plague and epidemic disease charges* (*Rs. 22,067*).—The total expenditure on this head shows an increase of Rs. 4,362. The bulk of the charge was incurred in the Burdwan and Presidency Divisions, and there was also some expenditure on this account in the Dacca and Rajshahi Divisions. The small expenditure of Rs. 90, in the Rajshahi Division, was due to an imported case of plague in Pabna. There was no plague in epidemic form in any of the municipalities and the expenditure was mainly incurred on precautionary and sanitary measures.

29. *Public Works* (*Rs. 8,29,145*).—The expenditure under this head shows an increase of Rs. 32,120 over the figures for the previous year. While the expenditure on "Buildings" rose from Rs. 61,839 to Rs. 1,11,367, the amount spent on roads was slightly less than in the former year. This is a matter for regret, as the condition of the roads in most municipalities is very far from satisfactory. The percentage of the outlay on public works on the total ordinary expenditure varied from 62·1 in Dhulian to ·8 in Kurseong. In 28 municipalities it exceeded 25 per cent., while in Chinsura (2·22), Garulia (1·4), Suri (1·73), Midnapore (6·4) and Kurseong (·8) it was ridiculously low.

30. *Public Instruction* (*Rs. 1,65,609*).—The total expenditure under this head increased by Rs. 6,586. The ratio of expenditure on primary education to the total ordinary income varied from 10·5 per cent. in Cox's Bazar to ·7 per cent. in Darjeeling. Thirty-seven municipalities spent less than 3·2 per cent. of their income on primary education.

31. *Loans.*—Forty-three municipalities were in debt at the close of the year and their total indebtedness, after deducting Rs. 6,175 the amount of the Sinking Fund investments of the Burdwan Municipality on account of loans raised in the open market, was Rs. 41,55,104. The largest outstanding liabilities were those of Howrah (Rs. 20,21,494), Darjeeling (Rs. 8,38,660), Dacca (Rs. 3,20,882), Narayanganj (Rs. 1,16,972) and Hooghly-Chinsura (Rs. 1,41,615). Eight municipalities received loans during the year, namely, Darjeeling (Rs. 1,53,000 for the construction of the bazar barracks, the sewage scheme and drainage), Hooghly-Chinsurah (Rs. 1,12,000 for water-works), Serampore (Rs. 40,000 for water-works), Chandpur (Rs. 15,000 to meet the capital cost of the old bazar water-works), Bankura (Rs. 12,500 for combined drainage and water-supply scheme), Jessore (Rs. 5,000 for water-works), Kushtia (Rs. 4,000 for drainage scheme) and Kharar (Rs. 2,500 for a dispensary building).

32. On 31st March 1913, 85 municipalities had outstanding liabilities on account of unpaid bills and unfinished work, amounting to Rs. 3,25,422, which represented 8·9 per cent. of their current demand. In 12 municipalities, viz., Serampore, Murshidabad, Taki, Debhatta, Mymensingh, Muktagacha,

Kishoreganj, Barisal, Jhalakati, Chandpur, Rampur-Boalia and Pabna, the amount of outstanding liabilities exceeded the closing balance.

33. *Audit of accounts and embezzlement.*—Embezzlements were detected in the municipalities of Baranagar, South Dum-Dum, Ranaghat, Nadia and Maheshpur, all in the Presidency Division. In Baranagar a blank cheque was extracted from the Municipal cheque-book, forged and cashed at the Bank of Bengal for Rs. 462. Suspcion fell on a former clerk of the municipality who absconded when criminal proceedings were instituted. This fraud was rendered possible by the failure to keep the current cheque-book in the personal custody of the Chairman as required by Account rule No. 46. The attention of the Chairmen of all municipalities is invited to the necessity for strictly observing this rule. The other cases were instances of criminal misappropriation by tax-daroga or collecting sarkars and presented no special features; they were due to laxity of supervision. No case of embezzlement was detected in any of the other divisions.

34. *Howrah.*—The current demand rose from Rs. 8,12,588 to Rs 9,21,011 on account of the assessment of new and improved holdings and the revaluation of certain wards. The total ordinary income during the year was Rs. 11,72,491 and the collections amounted to 90·5 per cent. of the net current demand, leaving a total outstanding balance of Rs. 57,630 at the close of the year (as compared with Rs. 3,333 last year). The percentage of collections compared very unfavourably with that of the previous year, viz., 97·3. The ordinary expenditure was Rs. 8,59,061, leaving a surplus of revenue over expenditure of Rs. 3,13,430. The outstanding debt was Rs. 20,21,494. The year was devoted mainly to the development and execution of schemes started in previous years. Work in connection with the water-works improvement scheme was in progress. The water-supply distribution scheme was extended and improved during the year. This led to an intensification of the shortage in Sibpur and a second storage reservoir has been found necessary to amend this. Steady progress has been made with the construction of surface drains. Work has not yet begun on the canal which is to be the outfall for the inland watershed: estimates for excavation of the canal and construction of the connected works were submitted to Government, but were referred back to the municipality for reconsideration Final arrangements were made for the lighting of the town by electricity instead of by gas. A proposal for a complete survey of the town was under consideration.

The record of this municipality is still one of great progress, and though much remains to be done, the Commissioners deserve full credit for what has already been accomplished.

35. The general record of the year's municipal administration is reviewed by the Divisional Commissioners. In the Burdwan Division, the Asansol and Bhadreswar Municipalities are efficient and progressive; Suri and Tamluk receive favourable comments and Baidyabati shows marked improvement. Elsewhere for the most part public interests are made subservient to party feelings. In this respect Utterpara is perhaps the worst offender and the elections are described as having been a scandal. Here and in Bally the extension of the Ward Committee system will have to be watched with care, the tendency being to use it as a means to undermine the executive power of the Chairman.

In the Presidency Division progress was retarded by the general elections which were held in about two-thirds of the municipalities. The outgoing Boards showed less interest in their work and the new Commissioners had not got into sufficient touch with things to do much before the close of the year. In the larger and more advanced municipalities there are signs of a growing interest in municipal affairs; the Chairman and Vice-Chairman for the most part exercised efficient control over their subordinates, and the rate-payers evinced a greater inclination to co-operate actively in the work of local self-government.

In the Dacca Division the Narayanganj Municipality has maintained its high reputation for efficiency. Barisal shows but few signs of material advance and its financial position is still unsound; but it is gratifying to observe that the Commissioners now appear to be animated by a genuine

desire for improvement, they have of their own motion increased their income by a revision of the assessment and they have made a praiseworthy effort to liquidate their old liabilities.

In the Rajshahi and Chittagong Divisions the larger municipalities were well administered, but here as elsewhere very little real interest is taken in the affairs of the small municipalities.

36. The municipalities of Burdwan, Howrah, Cossipore-Chitpur and Maniktala were allowed a free hand in framing their budgets, but no report on the manner in which they utilised the concession has been submitted by the Commissioners concerned; although their attention was drawn to a similar omission in 1910-11 and 1911-12.

Third and Final Forecast of the Wheat Crop of Bengal, 1913-14.

[*NOTE.—On the average of the five years ending 1911-12 the area under wheat in Bengal represents some 0·5 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total acreage in (a) British India and (b) in the territory now reported on has in the five years ending 1911-12 averaged (a) 38·8 per cent. and (b) 16·9 per cent.*]

Character of the season.—The chief wheat-growing districts in Bengal are Malda, Murshidabad, Nadia and Pabna. The rainfall in September and October was helpful to the sowings, which generally commenced at the usual time. The sowings were, however, late in Malda, Jalpaiguri and in parts of Murshidabad and Rangpur. The rainfall in November generally favoured the growth of the crop. The next two months (December and January) were generally dry with occasional showers of rain. This affected the growth of the crop to some extent. The rainfall during the third week of February improved the prospects generally; but being excessive, it damaged the crop in some places. The season in the chief wheat-growing districts has on the whole been fair.

Area sown.—The total area sown with the crop this year as estimated by the District Officers is 144,100 acres against 146,300 acres last year.

Outturn.—The average of District Officer's estimates of outturn per acre works out to 92 per cent. against 91 per cent. of the normal last year. Taking the normal yield to be 10½ maunds per acre, the total yield is estimated to be 51,100 tons against 51,400 tons last year.

At the end of April the average wholesale price of wheat at the principal marts of the Province was Rs. 4-10-8 per maund, or 17 per cent. more than the price ruling at the same date last year and 14 per cent. more than in 1912. The average wholesale price of common rice on the other hand for the Province at the end of April was 6 per cent. and 25 per cent. higher than at the corresponding dates in 1913 and 1912 respectively.

	Acres.	Acres.	Acres.				
Nadia	23,100	17,700	16,600	83	92	Middle of March. Normal.	The decrease as compared with the area of last year is due to heavy flood in Navadwip police-station and insufficient rain in Chuadanga subdivision at the sowing time. The weather conditions have been fair and the outturn is expected to be almost normal.
Murshidabad ...	69,800	37,300	37,500	92	83	March. Normal ...	Weather conditions were favourable. A normal outturn would have been obtained, but for the damage caused by the rains in February.
Jessore	2,300	1,000	1,100	83	83	Ditto ...	The weather conditions were favourable, but the prospects of the crop were slightly damaged by the falling of rain subsequent to sowing.
Burdwan	1,800	2,000	2,000	108	92	From middle of February to middle of March. Normal.	Since last report no damage has been done to the crop and the character of weather has been on the whole favourable. In Asansol and Kalna, the weather was unfavourable at the beginning of the season and the outturn was a little below the normal.
Birbhum	5,000	5,000	5,000	100	100	Second week of March. Normal.	The weather has been favourable and a normal crop is anticipated.
Bankura	5,500	3,800	3,700	83	92	15th March. Normal	Absence of rain at the beginning of February is responsible for the outturn falling below the normal.
Midnapore	2,600	1,400	1,000	75	70	March. Normal ...	The decrease of area as compared with that of last year is due to flood in Ghatal. The outturn is low as the plants did not develop well.
Hooghly	2,400	1,700	1,400	93	83	End of March. Normal	The decrease in area as compared with that of the last year is due to a deposit of sand on certain tracts by the late flood. The outturn is below the normal owing to the fact that the weather this year was not favourable.
Rajshahi	8,500	7,600	7,600	65	75	Middle of March. Normal.	The weather has been on the whole fair; but owing to want of rain in January the outturn is low.
Dinajpur	1,000	1,300	1,400	57	60	First part of March. Normal.	The increase of area as compared with the estimates in the second forecast is due to revision after further enquiry. The weather conditions have been favourable, but the soil was not favourable for the cultivation of the crop. Hence the fall in outturn.
Jalpaiguri	1,000	1,100	1,000	75	80	Middle of March. Normal.	Owing to late sowing the outturn is below the normal.
Darjeeling	4,500	4,500	4,500	85	92	First week of March. Normal	Weather was unfavourable at the beginning of the season. Hence the outturn is below the normal.
Rangpur	3,000	3,500	2,900	100	100	Ditto ...	The decrease in area as compared with that of the last year is due to excessive moisture in the lands during the sowing time The weather has been favourable.
Pabna	16,000	16,000	16,000	100	100	Middle of March. Normal.	The weather conditions have been favourable throughout. The outturn is normal.
Malda	60,000	40,000	40,000	95	100	March. Normal ...	A normal outturn is expected, as favourable weather conditions have prevailed throughout the season.
Faridpur	2,000	2,400	2,400	90	95	Middle of March. Normal.	The outturn has fallen below the normal for want of rain during the Christmas time.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1913-14.

[*NOTE.—On the average of the five years ending 1911-12, the area under linseed in Bengal represents some 6·5 per cent., and that under rape and mustard 22·2 per cent. of the total area under these crops in British India.*]

Character of the season.—The rainfall in September was general throughout the Province. In October, it was generally above the average and proved sufficient for sowings which began generally in normal time. The sowings were a little late only in Malda and in parts of Jessore and Jalpaiguri. The rainfall in November generally proved beneficial to the growth of the crops. The next two months, December and January, were generally dry with occasional showers of rain. This affected the growth of the crops to some extent. The rainfall during the third week of February improved the prospects generally; but, being excessive, it damaged the crops in some places. The season has on the whole been fair.

Acreage.—Oilseeds are chiefly grown in the Dacca, Rajshahi and Presidency Divisions. In the other two Divisions the area under the crops is very small. The total area under the crops sown this year is reported to be 1,565,300 acres against 1,571,200 acres last year.

Outturn.—According to the estimates of District Officers the total outturn of the different kinds of oilseeds (excepting *til*) for the Province as a whole works out to 90 per cent. of the normal against the same outturn last year.

Taking 6 maunds per acre as the normal rate of yield for linseed, rape and mustard and 4¼ maunds per acre for other oilseeds, the total yield of all kinds of spring oilseeds excepting *til* is estimated at 308,900 tons against the same yield last year.

3. The object of the scholarships being to enable ladies to enter the College at Delhi and to take up a professional course there, the award will be made to those, otherwise eligible, who are prepared to join the Junior Intermediate class of a recognised College or any similar class this year with a view to qualifying, after a course of study for two years, for admission to the Medical College at Delhi.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN AND OF THE GARDENS IN CALCUTTA, AND OF THE LLYOD BOTANIC GARDEN, DARJEELING, FOR THE YEAR 1913-1914.

ROYAL BOTANIC GARDEN.

1. **General.**—With the exception of the cyclonic storm, the effects of which are mentioned in some details below, the year under review has been favourable from a climatic point of view. The rainfall registered in the district was, in amount, quite sufficient for plant growth and favourably distributed throughout the year. This remark applied to the gardens in Calcutta as well as the Royal Botanic Garden and Barrackpore Park. It would, however, be difficult to have a season favourable to all classes of plants, and probably the rainfall in excess of the normal which was welcomed by most horticulturists was responsible for a comparative failure in the rose garden of the last mentioned park.

It is noteworthy that unfavourable weather conditions are relatively of much more importance in climates like that of Calcutta than are plant diseases whether insect or fungoid. To a lesser degree this statement may be

true of plants of economic importance, but all seem to be less affected by disease than the vegetation of cooler climates. With the exception of some plants in the nurseries, the garden may be said to be free from disease. But a garden, situated, say in middle Europe, of a similar area containing as many species would certainly have felt the effects of one disease or another in any year. This is all the more noteworthy when it follows the consideration that many of the plants in cultivation in the gardens are foreigners. They are endemic in other parts of the world and are put to the test of new conditions and yet seem to have left the ills to which they are subject behind them. Nor do they seem to be particularly liable to the diseases which they find in these new conditions.

The cyclone above referred to has been responsible for some 50 deaths. The endemic element here is less affected than the foreign species of Casuarina, an introduced tree which have suffered most, but the damage has been general, and it would be unsafe to undertake a comparison of the relative liablility of indigenous and exotic trees to the effects of cyclonic storms and to generalise on a single instance.

The care of the river bank has, as in former years, called for not a little attention, and in the beginning of the year all hands were engaged in battling against the effects of high tides and storms. The advent of high speed ferry steamers has also had its effect in this direction, for the back-wash and sidewave caused is more damaging than that produced by ocean-going craft whose speed on the river is less. The system of rivetting noted in former reports has been continued with success and as bricks become available the work will more rapidly gain completion.

A contract has been given out for the burning of 20 lakhs of bricks—a work which entails the formation of a bund along the fore-shore and round the brickfield. This part of the garden has been liable to flooding at high tide, but the river will now have a chance of silting up the area and subsequently valuable space for a herbaceous garden ought to be available. To encourage this silting, spurs have been thrown out at right angles to the bank and all available garden labour in addition to the contract labour has been engaged on the improvement. The number of bricks made to date is roughly 15 lakhs. The routine work of the garden has been kept going and, in addition, a beginning made with the repair of roads most in need of attention.

2. **Plant and Seed Exchange.**—During the year 5,102 plants were received and 55,777 distributed. Of the latter 2,930 were sent to Delhi for the new Capital, 4,400 to Bankipore for a similar purpose, while the remainder were distributed to various Governments, Local Boards, the Public Works Department and to charitable institutions. Amongst plants distributed, figure several consignments of orchids. Mr. G. H. Cave, Curator of the Lloyd Botanic Garden, Darjeeling, has been responsible for the collection and forwardal of these to Calcutta, as well as for the collection of packets of seeds too numerous to mention here. The above distribution of plants is the largest for several years. Packets of seeds sent out number 1,622, but a consignment collected during the year has still to be made up and distributed.

3. **Herbarium and Library.**—During the year 9,665 specimens of Indian plants were added to the Herbarium; the chief contributions were the following:—over 3,500 sheets of Travancore plants collected by Mr. C. C. Calder, Offg. Superintendent, and Mr. M. S. Ramaswami, Offg. Curator of the Herbarium, during their tour in that district in August and September 1913; about 800 sheets of Garo Hills plants obtained by Messrs. D. Hooper and S. C. Banerji; about 600 sheets of East Himalayan plants received from Mr. G. H. Cave, Darjeeling; nearly 500 named sheets of South Indian plants collected by Mr. M. S. Ramaswami during 1908-09 and presented by him; about the same number of Madura plants from Rev. A. Saulière, S.J.; over 400 Kumaon plants from Mr. N. Gill of the Kumaon gardens and about 200 Anaimalai specimens from Mr. C. E. C. Fischer, Deputy Conservator of Forests, Coimbatore. Besides these, quite a number of collections consisting of fewer than 200 plants were received from various parts of India.

Of the extra-Indian contributions, the following are the principal: about 600 Philippine plants from the Bureau of Science, Manila; over 500 plants from the Buitenzorg Botanic Garden; nearly 300 Scandinavian plants sent by Mr. R. Gross; about 200 plants from the Singapore Botanic Gardens and about the same number of Siamese plants from the Royal Botanic Gardens, Kew. Smaller accessions of Cryptogams, mostly from Europe, were also incorporated.

The incorporation of named sheets, though not calling for expert botanical knowledge, requires careful and reliable work and cannot safely be left to subordinates. It is a problem, for it usurps much of the time of the superior staff. Some 10,560 sheets were actually laid in during the year.

The total number of duplicates distributed was 3,655 sheets consisting mostly of Himalayan, South Indian and Malayan species. They were sent to 37 different botanical institutions throughout the world.

Apart from the working out of regular collections, just under 800 plants were identified for various correspondents and of this number, 462 were for the Forest Research Institute at Dehra Dun.

Library work was carried on as usual; the number of accessions by purchase or exchange being 50. A number of index slips for the periodicals in the library was prepared and supplied to the Asiatic Society of Bengal which is engaged in preparing a catalogue of scientific literature in libraries in and around Calcutta. The Officiating Superintendent and the Officiating Curator of the Herbarium are engaged in the preparation of an Index to all species of Indian plants not included in Hooker's Flora of British India. This is intended partly for publication and partly for a card catalogue for the immediate use of workers in the Herbarium.

4. **Publications.**—An Appendix to Volume XI of the Annals of the Royal Botanic Garden, Calcutta, being a supplement to Part I "the Species of Calamus" with 83 superb plates, by Dr. Odorado Beccari, was published. A revised and enlarged index for the whole of Volume XI of the Annals by Major A. T. Gage, I.M.S., was issued along with it. An "Alphabetical List of non-herbaceous phanerogams in cultivation in the open in the Royal Botanic Garden, Calcutta" also by Major Gage, was published. This last work should facilitate exchanges of plants, seeds or material for systematic, anatomical, physiological or chemical investigations with other botanical institutions.

Of the Records of the Botanical Survey of India, the following have been issued :—A general index to Volume IV, by Messrs. M. S. Ramaswami and S. C. Banerji; Volume VI, No. 2, by Messrs. W. W. Smith, G. H. Cave and M. S. Ramaswami; Volume VI, No. 3, by Mr. H. N. Dixon; Volume VI, No. 4, by Messrs. W. W. Smith and G. H. Cave and Volume VII, No. 1, by Father Blatter; other numbers are at present in the press.

5. **Financial.**—Of the total allotment of Rs. 71,467 for salaries and establishment, Rs. 57,275-13-3 were expended leaving Rs. 14,191-2-9. This was practically all saved under salaries, Rs. 116-14-3 only being saved under establishment. If account is taken of Rs. 2,496 transferred to the Eden and Curzon Gardens the net saving comes to Rs. 11,695-2-9. The revenue was Rs. 584-5 or Rs. 509-5 above the sanctioned estimated figure Rs. 75. Rupees 654--10 were spent out of a travelling allowance of Rs. 1,000 and Rs. 10,256-12-2 out of the allotment of Rs. 11,833 for regular contingencies. Of the contract contingencies plus the savings under this head from last year—a total of Rs. 29,856-5-10—Rs. 12,406-2-3 were spent. The saving under this head to be carried over to next year's account is therefore Rs. 17,450-3-7, but the extra expenditure on brickmaking and the reclaiming of the east portion of the garden will be heavy items against this sum.

* * * * * * *

CALCUTTA GARDENS.

Nothing on a large scale has been undertaken in these gardens during the past year, but attention has been given to the usual horticultural

operations, and the gardens have been kept in good condition. The year was favourable to cold season annuals, and the Canna gardens presented a fine appearance. Mr. North has given the customary advisory attention to the Government House and Barrackpore Gardens. The total allotment for these gardens amounted to Rs. 42,428, if Rs. 2,496 transferred from the budget of the Royal Botanic Garden, Sibpur, be added. Of this total, Rs. 40,432-7-9 were spent; the savings effected therefore amount to Rs. 1,995-8-3. The sums collected and paid into the Bank of Bengal as revenue were Rs. 370.

LLOYD BOTANIC GARDEN, DARJEELING.

It is impossible in the compass of a short report to do justice to the work which Mr. Cave who has held charge throughout the year so admirably carries on. Routine horticultural work well done figures largely, but there are, besides, special investigations which have now come to be a feature of the work of the garden. Among these the collection and distribution of Himalayan seeds, plants and bulbs is a work which requires not a little botanical knowledge, not to mention the difficulties and fatigues, though at the same time pleasant diversions, of jungle exploration. During the year now under review, some 13,551 plants, 7,544 dozen seedlings, 3,734 bulbs and 4,499 packets of seeds have been distributed in addition to specimens and seeds sent down to Calcutta. The harvesting and preparation of these would by themselves, tax the energies of an able Curator, but besides this special work, time has been found to experiment with the possible introduction of plants which may for any reason be suitable for adding to the general collections. Nor do such experiments always fail as the introduction of *Primula malacoides* obtained three years ago and now establishing itself with vigour shows. From the number of visitors (44,645) to the garden it would seem that Darjeeling appreciates the facilities afforded for recreation and plant study.

The only blot on a favourable report for the year lies in the labour question. The state of the labour market continues as represented in the last few annual reports but, in this respect, the garden would not appear to be suffering alone. In the tea gardens especially there is an outcry for labour, and the closing of Nepal to recruitment has not tended to help matters.

The savings effected from an establishment allotment of Rs. 11,066 after transference of Rs. 456 from contingencies to this head have been Rs. 24-14-2. Out of an allotment of Rs. 200 for travelling expenses Rs. 106-15 have been saved. The total expenditure under contingencies was Rs. 2,670-2, leaving a saving of Rs. 65-14 effected.

C. C. CALDER, B.Sc., B.Sc. (AGR.), F.L.S.,

Offg. Superintendent of the Royal Botanic Garden, Calcutta, and of the Lloyd Botanic Garden, Darjeeling.
